flowpac resi domestic booster sets

The future of domestic water boosting is here. The Flowpac Resi is a compact, all-in-one solution for poor domestic water pressure that offers a slim WRAS approved cold water storage tank with integrated 7" multi-stage electronic pump with variable speed drive. This versatile piece of equipment offers pressures of up to 5.5 bar and a maximum flow rate of 2 I/s. The Flowpac Resi is supplied fully assembled for easy plug-and-play installation.

flowpac resi booster set

The electronic operation allows the pump to start and stop autonomously and the variable speed drive means the unit is operating according to the system requirements. Working pressure is adjustable from 1 to 5.5 bar and protects against dry running.

Thanks to modern technology the Flowpac Resi can keep you updated on its operation whenever and wherever you are. The Flowpac Resi Box 2 coupled with the app means it's possible to check and manage the system pressure, alarms and the amount of residual water in the tank directly from your smartphone or tablet.

- Maximum Flow Rate: 2 l/s
- Head up to: 55m
- Adjustable constant pressure: pre-set 3 bar, adjustable from 1 to 5.5 bar
- Power cable (m) and plug: 15 m with plug
- Single phase power input: 230 V 50 Hz
- Flowpac Resi Box 2 supplied as standard

Available in three tank sizes: 300 litre 500 litre 1000 litre

## PRODUCT DETAILED OVERVIEW

flowpac resi domestic booster sets

#### **Expansion Vessel**

Potable expansion vessel sized to prevent the pump from cycling in the event of small leaks and to compensate for water hammer.

#### **Additional Water Storage**

Secondary tank can be installed (sold separately) to provide additional water storage when required.

### **NFC Float Switch**

NFC (Near-Field Communication) Float Switch installed and connected to pump to avoid dry running caused by low water in the cold water storage tank.

### **Insulation Option**

Made to measure insulation jackets are available for all of our Flowpac Resi models, sold separately.

## flowcare AFTER SALES SERVICE

At **flow**tech<sup>®</sup> we operate a network of Service Engineers located throughout the UK who are supported by our offices located in Greater Manchester. The distribution of engineers means that in the majority of cases we are less than 4 hours away from attending a customer call out.

We place great emphasis on providing technical back up to support our Service Engineers in resolving some difficult operational and technical issues. We pride ourselves on completing a project on time, within budget and never leaving a problem unresolved, or a customer waiting. This quality of service has made us the first choice for our customers.
