#### AH2-0509-022-M

#### **Product Description**

The Flowtech AH2-0509-022-M booster set utilises WRAS approved components and features 2 stainless steel multistage pumps mounted on a galvanised steel base plate. The pumps are operated by our advanced variable speed controller and will deliver a nominal flow rate of 7.0 m³/h (Per Pump) and nominal head pressure of up to 97.5 metres.

| Suc            | • | Fully WRAS Approved                                       |  |  |  |
|----------------|---|---|--|--|--|
| Certifications | • | Kiwa Regulation 4 Approved                                |  |  |  |
|                | • | UKCA Approved   |  |  |  |
| Ö              | • | CE Approved   |  |  |  |
| e              | • | Variable speed pumps control                              |  |  |  |
| Control Panel  | • | Volt free contacts  |  |  |  |
|                | • | Dry run protection  |  |  |  |
| Cor            | • | Duty-assist and duty-standby modes                        |  |  |  |
|                | • | 304/316 Stainless steel manifold assembly                 |  |  |  |
|                | • | Suitable for a single phase 230 volt supply               |  |  |  |
|                | • | Air cooled inverters                                      |  |  |  |
|                | • | External low water level facility                         |  |  |  |
| Features       | • | Pressure vessel with flow through isolation & drain valve |  |  |  |
|                | • | Robust steel powder coated base, compact size             |  |  |  |
|                | • | AV mounts & Flexible connectors optional                  |  |  |  |
|                | • | 2 Year Warranty   |  |  |  |
|                | • | Minimum pressure alarm                                    |  |  |  |
|                | • | Safety start (slow fill mode)                             |  |  |  |

#### Pump Performance Curve

#### Specification

| Suction connection                | 2 BSP    |  |  |
|-----------------------------------|----------|--|--|
| Delivery connection               | 2 BSP    |  |  |
| Max operating flow (per pump)     | 1.9 l/s  |  |  |
| Max operating pressure            | 9.6 bar  |  |  |
| Closed valve pressure             | 10.3 bar |  |  |
| Maximum system pressure rating    | 16 bar   |  |  |
| Speed                             | Variable |  |  |
| IP rating                         | IP55     |  |  |
| Motor power                       | 2.2 kW   |  |  |
| Weight                            | 77 kg    |  |  |
| Pressure vessels<br>N° x [Litres] | 1 x [24] |  |  |
| Maximum system temperature        | 23 °C    |  |  |

Losses in fittings and valves not included.

Performances shown are for S.G. 1.0 water with a liquid temperature during operation of 20 °C

Pumps are tested in accordance with BS EN ISO 9906:2012 Rotodynamic pumps - Hydraulic performance acceptance tests 
Grade 3B (ISO 9906:2012)

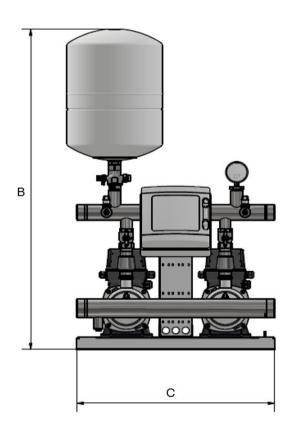

## **Electrical Data**

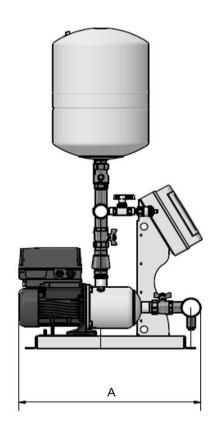

### **Model Codes**

| Operating speed range        | 30 - 50Hz |  |  |
|------------------------------|-----------|--|--|
| Per pump Current @ Full Load | 10 A      |  |  |
| Total Current @ Full Load    | 20 A      |  |  |
| Supply Voltage               | 230v      |  |  |
| Eleactrical Phase            | 1Ф        |  |  |
